JIM HILL'S ROAD.

The Great Northern Explains Its Recent Cut.

Dissatisfied With the Actions of Competing Lines.

Hill Called a Conference Which Was Slimly Attended.

After Which the Great Northern Reduced First-class Passenger Rates Virtually to a Second-class Basis.

By Telegraph to *The Times*.

ST. PAUL (Minn.), June 14.—[By the Associated Press.] The Great Northern Railroad gives the following statement in explanation of the cut in rates to all Western points: "On the 5th inst. the lines competing for North Pacific Coast passenger traffic were notified of our dissatisfaction with the conditions under which said traffic was being handled, for the reason that 75 to 80 per cent. of the business in both directions was being carried upon a second-class basis, indicating that a large percentage of this second-class business was only so in name and the direct result of unusual conditions. A conference was requested, but several interested parties failed to attend. On the 13th inst. our representative met some of the interested parties, but this conference was not productive of any satisfactory results. It is not to be expected therefore in inaugurating our through service that we shall provide a higher basis of rates for first-class travel than has prevailed by the lines of our competitors, and we therefore antecede that our basis of first-class rates will be the rate at which travel will be carried in tourist cars. We have therefore made provision for an essentially class travel rate, which should be made westbound, contemplat-ing reasonable accommodations, which will be effective on the 18th inst. The following rates will be made from our Eastern terminals to the North Pacific Coast points: First class, \$25; second class, \$22. To Spokane, first class, \$30; second class, \$20. To Helena and Butte, first class, \$25; second class, \$18. First-class rates will apply in both directions; second class westbound only. The tickets at these rates will be limited to continuous passage.

"The reduction in rates is apparent.

The cut in first-class ticket rates to Seattle and other Coast points is \$25, and for second class, \$10. To Spokane the cut in first-class ticket rates is \$26.50; second class, \$13; to Helena and Butte first-class, \$15; second class, \$8. The equipment on trains will be new, consisting of first and second-class coaches, free colonist sleepers, buffet-lunch and parlor cars, dining cars and first-class sleepers."

THE FORD DISASTER.

Col. Ainsworth's Petition Rejected by the Courts.

WASHINGTON, June 14.—[By the Associated Press.] The District Supreme Court this morning dismissed Col. Ainsworth's petition for a mandamus on two grounds:

First.—Holding that the deputy coroner is not a legal officer, which invalidates the inquest so far as held.

Second.—The right of a person to be present at an inquest in person by counsel is discretionary with the Coroner, and is therefore not a subject for mandamus.

In reference to the decision of the Supreme Court, Deputy Coroner Shaffer, who has been conducting the inquest on the Ford Theater victims, adjourned the proceedings until tomorrow.

Bridget Sullivan was recalled, and identified a bloodstained handkerchief, found beside Mrs. Borden's body, as a duster which she had used.

Ell. Bettis, the duster clerk who was asked to testify that Lizzie tried to purloin a pruinic acid from him the day before the murder, was next called, but an objection was raised by the defense, and, after considerable argument, the court retired for consultation regarding the admission of the testimony. They returned with the decision that the evidence would be admitted. Lizzie flushed visibly, but adjournment was immediately taken until tomorrow.

Rescued from Death.

CHICAGO, June 14.—Mrs. Sidney Goodkind, wife of Sidney Goodkind, the son of a wealthy San Francisco merchant, jumped into Lake Michigan last evening with suicidal intent, and was rescued with the greatest difficulty by a passerby. Mr. and Mrs. Goodkind have been living at No. 345 Elm street. Mrs. J. B. Walker, the owner of the house, says Goodkind left there last evening for Grand Rapids, Mich., where Mrs. Goodkind's parents reside. She says, also, that some unpleasantness was exhibited between the man and his wife, and she was not surprised to hear of the attempted suicide. Nothing more is known of the affair, no trace of the parties being found.

The Indian Fracs.

MINNEAPOLIS (Minn.), June 14.—A Journal special from Brainerd, Minn., says that Co. D of the Third United States Infantry arrived there last night, and early this morning started for Leech Lake. C. C. Vandoren, who lives near the reservation, is here, and says Dr. Walker resisted the attempt of an Indian to take whisky, and when the Indian advanced upon the doctor the latter drew a revolver and shot the Indian in the mouth. Dr. Walker, the wounded Indian, and three Indian police are all in one building, which is surrounded by pickets.

Mystic Shrines.

CINCINNATI, June 14.—The Imperial Council of the Nobles of the Mystic Shrine today refused to sustain the action of Imperial Potentate Melish in suspending Recorder Luce of Chicago. Denver, Colo., was chosen as the place for the next meeting, June 17, 1894.

Late this evening the Imperial Council of the Mystic Shrine elected officers as follows: Imperial Potentate, Thomas J. Hudson, Pittsburgh; Deputy Imperial Potentate, Charles J. Fuld, San Francisco; Imperial Treasurer, Joseph S. Wright, Philadelphia; Imperial Recorder, Frank M. Luce of Chicago.

Bicycle Race.

SPRINGFIELD (Ill.), June 14.—Participants in the bicycle race relay from this city to the capital of Wisconsin, Indiana and Kentucky left here this morning under favorable conditions.

Since 10 a.m. June 14.—Tom Rose reached here at 10 o'clock this afternoon, still ahead of schedule time. He lost some time, however, between Utica and this city, the tire of his wheel having gone down several times.

Cleveland Receives.

WASHINGTON, June 14.—The President kept "open house" today. The large passage-way upon which are the President's offices was crowded, and he received more than fifteen Senators and twenty-five representatives, besides twenty or more unofficial callers.

CASHIER FLOOD.

A Jury Will Decide Today Whether He Is a Criminal or Not.

SAN FRANCISCO, June 14.—[By the Associated Press.] The flood embezzlement case was concluded this afternoon somewhat abruptly, and will be given to the jury tomorrow morning, after the Judge's charge. The defense introduced no testimony, but Attorney Foote, in his argument, contended that Flood, as cashier of the bank, had merely made a mistake in paying out \$164,000 in overdrafts, and, being a partner in the bank, he had a right to pay them, and could not be held liable. Gen. Barnes, for the prosecution, dwelt on the fact that Foote was the only witness who said the money disappeared in overdrafts, and even Foote was not under oath.

EVANS CRIPPLED.

The Outlaw Loses a Hand—Sontag Still Living.

VISALIA, June 14.—[By the Associated Press.] Chris Evans's left hand was amputated just above the wrist at 2:30 o'clock this afternoon.

Sontag is in better condition today than before. The physician says he is astonished at the favorable change in his condition. Evans continues cheerful despite the operation performed on him.

THE BORDEN MURDER.

No Love Lost Between Lizzie and Her Stepmother.

Witnesses Testify as to the Strained Relations Between the Two—The Bloodstained Handkerchief Again in Evidence.

By Telegraph to *The Times*.

NEW BEDFORD (Mass.), June 14.—[By the Associated Press.] Women were in the majority at the Borden trial again today. City Marshal Hillard of Fall River was the first witness. He described his visits to the Borden house, and the conversation with the prisoner in which she was told that she was suspected. She told Hillard she was in the barn when the murders were committed. The cross-examination developed nothing new.

Mrs. Gifford, a dressmaker, testified.

In speaking of Mrs. Borden she referred to her as Lizzie's mother. Lizzie said: "Don't say that, because she's mean, good-for-nothing, and I don't have much to do with her." Lizzie further said she staid in her room at home, and while eating at the same table, never took meals together.

Anne H. Borden gave no material testimony.

Then came six witnesses who were in the neighborhood on the morning of the murders, none of whom saw any one enter or leave the Borden house. The cross-examination, however, showed a thing was possible without being observed.

Mrs. Gifford, a dressmaker, testified.

The Yellow Fever.

Latest cholera advices from the old world are not reassuring. There is abundant evidence that the dread disease is rapidly spreading. If it is not already epidemic, Spain has already taken precautionary measures to insure her safety, and has established a quarantine for vessels arriving from French ports on the Mediterranean. There have for some time been daily deaths at Marseilles from the scourge, and at Hamburg, where sporadic cases have occurred all winter, there is no denying that the disease is now making headway. It was from this latter city that most of our cholera-infected immigrants arrived at New York last year, and it is from this direction that we have the most to fear from infection. It is gratifying to know that the officers of the line which would be most seriously affected by a renewed outbreak of cholera at Hamburg are endeavoring to take the most effective measures to prevent bringing cholera to our shores. The company, it is said, has built large barracks at Hamburg where proposed emigrants and all passengers will be detained under the supervision of two physicians of the United States Marine Hospital Service, until they consider it safe to allow the immigrants to embark. In addition to this—a physician from the staff of the health officer at New York is on duty at Hamburg, at the company's expense, charged with the duty of seeing that no affected emigrant gets aboard its vessels. With these precautionary measures stringently enforced we have great encouragement to hope that cholera will not secure a foothold in this country the present summer. Yet no city should relax its sanitary regulations. Clean up should be the watchword in every city of the land.

A Venezuela Venture.

An agricultural colony is being formed in San Francisco to settle in Venezuela, the government of that country having recently passed a law for the encouragement of immigration and colonization. Among the inducements offered are free passage to the country, free board and lodgings for a period not exceeding thirty days after arrival in the country, free importation of the household goods, working implements, domestic animals, machinery, tools, etc., of the immigrants, free grant of land for each immigrant, varying from two hectares to six hectares, according to the situation and fertility of the land, and the right to take up and hold as much more land as the colonists may be able to use and to pay for at the end of four years from the date of taking up the land. The history of previous settlements of Europeans and Americans in South America should be sufficient to keep sensible Americans from going to a country like Venezuela, where manual labor is left to peons, and insurrections are so frequent that the women outnumber the men about five to one.

The Treasury Department, in purchasing silver, is guided by the price in the London market. There are many Americans who believe this country is great and prosperous enough to become a financial law unto itself. To break away from European leading strings would be temporarily inconvenient, but we grow all we really need in the line of food and clothes, and could not easily be "frozen out." Of course, there would be a loud roar at their meeting Tuesday night the post perfected arrangements for establishing a woman's relief corps as an auxiliary to the post, which will be composed of Santa Monica ladies and the ladies of the home.

WHITTIER STATE SCHOOL

Regular Monthly Meeting of the Officers and Teachers.

The officers and teachers of the Whittier State School held their regular monthly meeting in the library of the boys' department on Tuesday evening.

The program of the evening was read by Prof. J. E. Lockwood, and the subject was the necessity of instruction in mechanical drawing in the State school. He referred particularly to its usefulness to the carpenter, to the blacksmith and to the electrical engineer, and thought that all of the pupils who were learning these trades should receive special instruction in drawing. He said that he was now giving instruction in mechanical drawing to all of the boys in the carpenter shop, but thought that the work should be extended so that the young men in the other trades would be benefited.

John A. Martin Post is improving every day in membership. There are now 115 members on the roster, with new members coming in every meeting.

At their meeting Tuesday night the post perfected arrangements for establishing a woman's relief corps as an auxiliary to the post, which will be composed of Santa Monica ladies and the ladies of the home.

TRANSCONTINENTAL TARIFFS DISHONORED.

The Southern Pacific has again refused to honor the through transcontinental tariffs of all lines except the Atchison. The traffic agreement between these two lines seems able to withstand all onslaughts. In view of the recent reductions in transcontinental rates made from Chicago by the Atchison, all other lines have issued tariffs quoting the same rates and read over the Southern Pacific via Ogden. These tariffs the Southern Pacific has refused to honor. The cause of the trouble is the old dispute on the division of the rates between Chicago and the Missouri. The Missouri River lines demand 17½ per cent. of the entire rate, and the Southern Pacific and Atchison have decided to dishonor the tariffs of all connecting lines unless they provide for a 15 per cent. division between Chicago and the Missouri.

WESTERN PASSENGER AGREEMENT.

CHICAGO, June 14.—[By the Associated Press.] The revised agreement of the Western Passenger Association was originally intended to go into effect June 15, but in order that local lines may have time to make arrangements no penalties for a violation of the agreement will be exacted until after June 20.

SCRAP HEAP.

W. R. Allenger, traveling passenger agent for the Atlantic and Pacific at San Francisco, came down to Los Angeles yesterday.

The Burlington passenger office here has received a big cargo of fans from Japan, to be given away when the weather becomes warm enough to make them acceptable.

John R. Truslow, agent for the Santa Fe at Santa Barbara, came down yesterday with a party for the East.

H. B. Keeler, agent for the Santa Fe at San Diego, was at Los Angeles yesterday.

KANSAS CITY STAR.

The Kansas City Star says that J. E. Hurley, assistant superintendent of the girls' department, said that aside from the utilitarian advantages derived from the instruction in drawing she believed that, from a psychological standpoint, it was a very valuable branch of the education and would prove specially important in the work of the Whittier State School.

Mr. Baldwin, the farmer, and Mr. Tregonning, the gardener, each stated that instruction in drawing would be very valuable to the boys who were learning the avocations that they were teaching. Both farmers and gardeners often had to lay out plots of ground, and that every little knowledge of drawing would help the boys going out from this school to get positions as farmers and gardeners.

To capitalists who inquire about the San Diego and Phoenician Railroad project, the promoters of that enterprise, which is yet in an embryo state, say that the exact distance from San Diego to Yuma is 175 miles by the surveyed route; that the steepest grade is 2 per cent.; that the cost of grading will average \$8500 a mile, and that the construction of such a road would save 200 miles in distance over the present route by way of Los Angeles. They also assert that such a road would be sure of a gross income of over \$8,000; 000.

H. H. Vincent, who has the Santa Fe agency at Pomona, was a visitor at headquarters here yesterday.

G. F. Tincher, the Apollo of the Santa Fe passenger department, went to San Diego yesterday to secure a party of Eastern travelers.

"A crazy social" for the benefit of Ascension Mission was given at Korbell Hall, Boyle Heights, last evening, which was well attended.

The San Francisco Chronicle says

SOLDIERS' HOME.

Contributions for the Library Solicited—The Keeley Cure.

Friday, June 16, is pension-day.

No deaths have been reported during the past three weeks, and only 183 since the establishment of the home.

There are 1150 inmates now on the rolls of the home. About three hundred are on furlough.

Laborers are now busy grading and building walls about the hospital grounds.

Three hundred tons is the product of the home hay crop. It is now being baled and stored.

The orchard of figs, peaches and pears looks remarkably well at present.

A large force of men and teams are now engaged upon the work of raising the dam and completing the reservoir up the cañon. The water capacity of the reservoir will be practically unlimited, the water in the dam being used for irrigation and the reservoir for domestic purposes. The reservoir will contain approximately one million gallons of water.

The home library has been removed from the old building to commodious quarters in Headquarters building, where the old veterans are much better situated in this regard; but at present there is a woful lack of books and reading matter for the entertainment of the inmates. The post fund, which comes from the "canteen," is supposed to go for amusements and the purchase of books, but this fund has been diverted into other channels, such as necessities and the like, leaving the library fund depleted. Strenuous efforts are now being made to build up the library, and the librarian has prepared circulars which are to be sent to prominent men and philanthropists throughout the country, stating that in the matter of books and other reading matter for the library, an appeal must be made to the generosity of the public. Contributions are therefore asked of either money or books, and, as the librarian says, both will be thankfully received and promptly acknowledged. There are now only about four hundred books in the library, and some of these are trashy in the extreme. Besides relying upon the public for a nucleus of a library, the inmates of the home are doing all they can to fill up the library.

In this connection the home troupe is to give an entertainment at Steer's Opera house, Santa Monica, next Saturday evening, for the benefit of the library and for the same fund is announced to take place in the Park Theatre, Los Angeles, a week from next Saturday evening.

Entertainments are in prospect.

The Board of National Managers have made arrangements with Dr. Keeley to establish the Keeley cure at the home, and inside of two weeks an institute, under the charge of a competent physician, will be in full operation. A class of eighteen veterans is now ready to take the treatment. Meetings have been held, at which Gov. Treichel, Inspector-General Brown and A. B. Gooden have addressed the veterans on the workings of the cure at the other national houses throughout the Union, and in consequence a Keeley league has been organized here and a guaranteed fund of \$1,000 raised to go for the expenses of the treatment in case there are not sufficient patients at the start. The cost to each veteran will be \$22.50, of which \$20 goes for the treatment and \$2.50 for the expenses of the league.

John A. Martin Post is improving every day in membership. There are now 115 members on the roster, with new members coming in every meeting.

At their meeting Tuesday night the post perfected arrangements for establishing a woman's relief corps as an auxiliary to the post, which will be composed of Santa Monica ladies and the ladies of the home.

TRANSCONTINENTAL TARIFFS DISHONORED.

The Southern Pacific has again refused to honor the through transcontinental tariffs of all lines except the Atchison.

The traffic agreement between these two lines seems able to withstand all onslaughts. In view of the recent reductions in transcontinental rates made from Chicago by the Atchison, all other lines have issued tariffs quoting the same rates and read over the Southern Pacific via Ogden. These tariffs the Southern Pacific has refused to honor. The cause of the trouble is the old dispute on the division of the rates between Chicago and the Missouri. The Missouri River lines demand 17½ per cent. of the entire rate, and the Southern Pacific and Atchison have decided to dishonor the tariffs of all connecting lines unless they provide for a 15 per cent. division between Chicago and the Missouri.

WESTERN PASSENGER AGREEMENT.

CHICAGO, June 14.—[By the Associated Press.] The revised agreement of the Western Passenger Association was originally intended to go into effect June 15, but in order that local lines

may have time to make arrangements no penalties for a violation of the agreement will be exacted until after June 20.

SCRAP HEAP.

W. R. Allenger, traveling passenger agent for the Atlantic and Pacific at San Francisco, came down to Los Angeles yesterday.

The Burlington passenger office here has received a big cargo of fans from Japan, to be given away when the weather becomes warm enough to make them acceptable.

John R. Truslow, agent for the Santa Fe at Santa Barbara, came down yesterday with a party for the East.

H. B. Keeler, agent for the Santa Fe at San Diego, was at Los Angeles yesterday.

KANSAS CITY STAR.

The Kansas City Star says that J. E. Hurley, assistant superintendent of the girls' department, said that she thought instruction in drawing had a very definite influence on all children, no matter whether they were learning trades or not. That a person who learned to draw became correct in all observations, and everything would be done more accurately.

Miss Wait, teacher in the boys' department, agreed with Miss Wolfe, and urged the importance of the instruction of drawing to all children.

THE SUPERVISORS.

The Pasadena Committee Again Before the Board.

Further Hearing in the Matter of the Electric Road Franchise.

Justice of the Peace Appointed for Los Nietos Township.

A Resolution Presented Indorsing the Management of the Whittier State School—Will Pay the Demands.

The Board of Supervisors held a short business session yesterday, all members being present except Supervisor Hay. On motion of Supervisor Forrester, it was ordered that \$843.75 be paid Montgomery Bros., that amount being 75 per cent. of the contract price agreed upon for putting in the Court-house clocks, it appearing that the firm had satisfactorily performed their part of the agreement.

In the matter of the Big Rock Irrigation Company's application for the appointment of a director, the board decided to designate Jacob Miller as such director-at-large and instructions were issued accordingly.

The bond of A. E. Littleboy on the contract for the furnishing of the county drug supply was also approved. W. A. White sent in his resignation as manager of the Free Labor Bureau, which was accepted, and H. C. Katz was appointed to fill the vacancy.

The resignation of P. Conant as Justice of the Peace of Los Nietos township was accepted. To fill the last vacancy Samuel W. Burke was appointed in response to a petition from the citizens of the township.

Regarding the matter of a franchise for an electric railroad between this city and Pasadena, no further action was taken. The committee of Pasadena citizens was present to offer the draft of an appropriate ordinance, as proposed by the board, to the board, and they reported that about one-half of the right-of-way had been secured. Another postponement was then ordered for further hearing.

This matter being disposed of for the time, the clerk arose and read the following resolution:

Whereas, in connection with a claim made on behalf of the State for payment of one-half of the expense of keeping indigent children in the State School at Whittier, in the amount of \$25 per child, this committee has been incidentally cast upon the economy of the management of said school and this county has delayed its payment of such claim by reason of advice of the District Attorney that the same should be rejected; be it therefore resolved that the sum is in excess of the cost of keeping the inmates of other but dissimilar State institutions and, whereas, we have made a visit to said State School, and examined into the management of said institution, and have also acquired information more fully with the law, government, and regulations of said school and the payment of the expenses thereof, and, whereas, the amount claimed from this county is at the same rate as that claimed from all of the other counties of the State, and the moneys so collected go into the State treasury; and, the greater portion of such moneys is expended in this county, in addition to the moneys expended for establishing said institution in this county, and approved by the Governor; and, whereas, the sum of \$25 per child is a reasonable amount, and the estimates of said institution is an estimate fixed in accordance with the laws of this State, with which this board has nothing to do, and that the amount is in excess of the actual requirement, and the excess remains in the State treasury, with the moneys of other counties paid into said fund, and believing that such is a legal demand against this county; and, whereas, we find no record of any payment to said institution, and the amount paid, and, whereas, we find the management of said State School to be economical, that the most careful business sagacity is exercised in the conduct of its business affairs; and, whereas, we have found that \$25 per child is not an excessive amount, good clothing, medicine and education alone, but also includes cost of tools in workshops, repairs of machinery, and all materials used in its workshops, and also included the planting and caring for seventy-five acres of orange trees, lemon trees, and other trees of which are in a thrifty condition; and, whereas, the food and clothing provided is well selected, and purchased after competitive bidding at very nearly wholesale prices, and could not be diminished in quality without loss of the benefit of said institution, and a diminution of the beneficial results expected from its establishment; and, whereas, we find said school to be doing a great and noble work for those committed to its care; now, therefore, be it resolved,

That the same be approved, and that this board fully indorses the management of the State School at Whittier in its business and its educational and moral work, and this board hereby expresses its hearty appreciation of the earnest, great, praiseworthy and eminent successful efforts of Dr. Walter Lindley, through the instrumentality of said school, to mould those committed to its care into useful citizens and valuable members of the community.

Action on the resolution was deferred until a future date, when the board adjourned.

Fire Commissioners.

The Fire Commissioners met in regular weekly session yesterday morning.

It was decided to have a test of all apparatus and fire hydrants as a precaution against summer fires.

C. A. Johnson's application for position of callman was filed. F. T. Birmingham's application to place boiler and engine at Second and Vine streets was referred to the Chief.

The Chief reported having placed hydrants at Dakota and First streets and at Crescent and Marion avenues. He also recommended that the Hayes-Street sewer be extended to the north end of engine-house No. 1, so that the house be raised six inches and a brick foundation be put in; also that the house be painted and kalsomined.

It was recommended to the Council to extend the sewer on Hayes street, as suggested.

Quarantine Business.

Dr. George Goodfellow, Territorial quarantine officer of Arizona, is in town.

Today Dr. Goodfellow will meet at Colton with Dr. Ruggles and other members of the State Board of California, to arrange for a complete quarantine system in case any epidemic should render such a course necessary.

NOTICE.

Consumers of water from the Los Angeles City Water Company plan to prosecute if that they pay any building or street contractor to use water from their hydrants, unless such contractors show a permit from this company, their water will be shut off without further notice, and a fine will be charged for such infraction of the regulations before water will again be put on.

LOS ANGELES CITY WATER COMPANY.

THE GREAT REGISTER.

Extra copies of the Great Register of voters in Los Angeles, just printed, may be had at THE TIMES counting-rooms. Price, 25 cents.

OH, IF I only had her complexion! Why, it is easily obtained. Use Fobson's Complexion Powder.

Your Summer Vacation

EXT Monday we will make the strongest bid for trade that was ever offered by any business house in the West. We are going after trade, we are shooting for big game. You know the history of our big pocketbook sale of a year ago: the crowds were in line out as far as the street-car tracks, and every avenue in the store was lined with customers. We expect a repetition next Monday. You know by this time we do as we agree; we hold out no false ideas. The business of this house is doubling up; we are now doing the largest business ever done by any dry goods house in this city. Other houses may make an effort for Saturday night's trade. Our show windows are a menace to them. Customers can see at a glance that business is done on the broadest scale imaginable. Monday we more than make up for the Saturday night's grinding of their employees. Last Monday's was the largest sale of the year. Next Monday will go far ahead of it. New ideas on a broad scale will be presented for the first time. Laboring men all over the land are clamoring for shorter hours; we grant it to them, and every week since the commencement our trade has been growing. Never before was the growth so great as it is now; it comes like an avalanche at times. Greater selling brings greater prosperity. Los Angeles is the only town of any size in the West with a large increase in business over a year ago. Prosperity and prosperous times are now here; outside capital is putting in millions in improvements of all kinds; the banks are full of ready money, seeking channels of investment. Let us all take advantage of the opportunities and show what can be done by a great pull for more trade. Watch for our full-page advertisement in next Sunday's TIMES. Look at our big show window Saturday morning. Compare our crowds next Monday with all the trade other houses in the city get Saturday night. Our big trade will last all day Monday—theirs about an hour Saturday night. Is it reasonable suppose the employees in other dry goods houses will work with a will under the grinding Saturday night process, when more enterprising houses close their doors? Hardly! Look in upon us today; you will see busy aisles and satisfied clerks; they have ambition and work for the best interests of the business.

Manitou.

Table Water & Ginger Champagne

It is a naturally effervescent soda water.

It drives away Malaria, cures Biliousness and Dyspepsia, and corrects the Stomach.

It is the finest Mineral Table Water known.

It is used in clubs, hotels and families, and when once used is always used.

The one genuine, original and pure "Manitou."

There is only one "Manitou" recharged solely with absolutely natural carbonic acid gas.

The Manitou Mineral Water Company alone supplies that water.

It is the original, genuine, original and pure Manitou.

BUSINESS.

FINANCIAL AND COMMERCIAL

OFFICE OF THE TIMES.

Los Angeles, June 14. 1893.

The Earl Finch company sold fruit today, in Chicago, realizing the following prices:

Sound cherries, 1.45; Riverside Meditter-

nean, 3.25@3.65; seedlings, 2.00@2.75.

New York Stocks.

The New York market was quiet again today and irregular, the undertone being comparatively firm, and in numerous instances, prices closed higher than yesterday. The bears had in their favor a continued influx of grain to the West, and business circles, but the market rallied easily each time the pressure was lifted. At the opening, the general list yielded fractionally, but subsequently Manhattan rose 4 points; General Mills, 3@4; cargo grain, 2@3; Louisa, Louisville and New Orleans, 1.15; and National Cornage preferred, 1. The general market held up well until the rate for money jumped to 10 per cent, when some ran off. There was a rally in grain stocks, but the market left off rather weak.

Government bonds closed weaker.

New York, June 14.—MOSEY.—On call, firm; closed offered at 8 per cent.

PRIME MERCANTILE PAPER.—@08 per cent.

STERLING EXCHANGE.—Was steady today: 60-day Bills, 4.85@4.85; demand, 4.85@4.87.

United States Marshal Gard returned from the North yesterday. He was wounded when fated after his chase after Santag and Evans, and remained at his home during the entire day. He received quite a number of callers, to whom he kindly gave the details of the capture of the bandits, as has been heretofore published in the telegraph columns of THE TIMES.

PERSONALS.

Atty. Gen. W. H. H. Hart is in the city on a business trip.

JULY WEATHER.

Data Compiled from the Records of the Government Bureau.

The chief of the Weather Bureau furnishes for publication the following data, compiled from the record of observations for the month of July, taken at this station for a period of fifteen years.

It is believed that the facts thus set forth will prove of interest to the public, as well as the special student, showing as they do the average and extreme conditions of the more important meteorological elements, and the range within which such variations may be expected to keep during any corresponding month.

Temperature—Mean or normal temperature, 71 degrees. The warmest July was that of 1891, with an average of 74 degrees. The coldest July was that of 1880, with an average of 65 degrees. The highest temperature during any July was 109 degrees on July 25, 1891. The lowest temperature during any July was 49 degrees on July 12, 1888.

Precipitation (rain)—Average for month, .03 of an inch; average number of days with .01 of an inch or more, none; the greatest monthly precipitation was .27 of an inch, in 1886; the least monthly precipitation was .00 inches in 1877, 1878, 1879, 1881, 1882, 1890, 1892. The greatest amount of precipitation recorded in any twenty-four consecutive hours was .24 of an inch, on July 14, 1886.

Clouds and weather—Average number of cloudless days, 14; average number of partly cloudy days, 16; average number of cloudy days, 1.

Wind—The prevailing winds have been from the west; the highest velocity of the wind during any July was 22 miles, on July 7, 1880, and July 14, 1886.

The Jeff Davis Diagram—Philadelphia Telegrams—

This is the plain way to put it, for it is folly for any man who will cheer the flag of the rebellion and go into historical pantries over the remains of Jeff Davis to insist that he is a true son of the American citizen. It is a shameless spectacle, and one that is not only a sectional but a national discredit.

Which Shall It Be?

This amazing, if not mortifying, question is going the round. How far west or north must one go before a doughnut becomes a nut cake, and how much farther west before it becomes a fried cake?

THE only K-Sley Institute in Southern California is at Los Angeles. The Los Angeles offices at room 100 and N. 11th and W. 11th streets.

"CREAM Puff" Self-Raising Flour.

VISITING CARDS engraved. Tel. 262.

LET Kern & Kanowitz make your clothes. 219 South Broadway.

Royal Baking Powder

ABSOLUTELY PURE

A FAMILY ROW.

A Young Woman Takes Possession of Her Father-in-law's Buggy.

Samuel Cripe was at The Palms Wednesday acting as a juror in the local justice's court. When he was dismissed he found that his bay mare and spring buggy, which he had left in front of the courtroom, were missing. He immediately departed for Justice Twitchell's court in Santa Monica, and swore to a complaint charging John Doe with the larceny of his mare, and the buggy, which he alleged, was the property of his son, H. L. Cripe. A warrant was issued, and Constable Dexter started in pursuit of the prisoner. He was not long on the road, when he came across the property in the possession of Mrs. Emma Cripe, the young wife of the complainant's son. The officer brought the young lad in, and she was arraigned before the Justice. Thereupon he asked what she had to say, and she informed the Court that she supposed the rig was the property of her husband, and she had the right to take a ride in it if she wanted to, and that she was released when apprehended by the officer. The complainant also stated that he thought there was a mistake, and the young lady was guilty of no felonious intent. Judge Twitchell was compelled to be lenient with the fair prisoner upon this showing, and agreed to dismiss the case if the costs were paid, amounting to \$10.40. Old gentleman Cripe deposited the amount and the young lady took her hasty departure. It was evident from all the circumstances surrounding the case that all of the matter did not appear in court, as the defendant and husband have not been living together for some time, although married but about a year.

PETTY OFFENDERS.

A Fair Amount of Business Disposed of by the Police Judges.

The argument in the battery case against John Gough, the electric car conductor, was concluded yesterday. Justice Seaman, in stating that the defendant was found guilty as charged, said that the testimony seemed to show that the complaining witness was ejected from the car before the same had come to a standstill. The defendant will appear for sentence today.

Eight drunks were fined or otherwise sentenced.

Low Gow was found guilty of a violation of the hitching ordinance, but sentence was suspended.

The case of C. B. Nelson charged with embezzlement, was dismissed, the complainant failing to appear.

James Francis, charged with petty larceny, was discharged for a similar reason.

John Welsh was fined \$5 for battery.

W. E. Bonsell was found guilty of a misdemeanor, in that he had sold liquor after midnight. He said he was not aware of the lateness of the hour, and was fined \$5, with the distinct understanding that the offense should not be repeated.

DIED.

POWERS.—In this city, June 14, 1893, Eva

Maud Powers, aged 20 years 6 months. Funeral today. Thursdays at 4 p.m. from the Mortuary, 1209 S. Spring, Boyle Heights. Friends and acquaintances invited to attend.
